Customizable Training

Contact us for a customized GRC program!

This 3-full-day intensive course will teach you how to design and implement an integrated GRC capability within your organization.

It also prepares you to enhance your credentials by taking the GRC Professional certification exam, the top GRC certification in the world, offered by OCEG's affiliate organization (GRC Certify). Our courses have a minimum 5, maximum 12 participants per session.

Training Program

This training will help you get clarity on what GRC is, and what it is not, by learning how to develop a GRC program based on the GRC Capability Model from OCEG. through lectures and practical group interaction, discussions, and exercises, you will learn about:

- Defining a GRC strategy
- Integrating and improving corporate performance, risk and compliance programs
- Designing and implementing an integrated GRC capability using the OCEG GRC Capability Model
- Strengthening core business processes
- Improving use of technology to support the integrated governance, management, and assurance of performance, risk, and compliance
- Having a common language to discuss governance, risk management, and compliance topics in your organization
- Successfully pass the GRC Professional certification exam

GRC Professional Certification

This course also prepares you to successfully pass the GRC Professional certification exam, the top GRC certification in the world. As a result, you get multiple benefits from attending this training. In fact, over 90% of participants pass the GRC Professional exam on their first attempt!

Significantly improve your chances of passing the exam on your first attempt, which saves you time and frustration from taking the exam multiple times.

Raise your creditability in GRC by obtaining this valuable certification.
